Trip Details

Lombardia

Your journey starts in Lombardia, a region known for its breathtaking landscapes, rich culinary heritage, and exceptional wines. From the hills of **Franciacorta** to the vineyards of **Valtellina**, we'll explore exclusive wineries and hidden gems that showcase the region's unique winemaking traditions. Along the way, you'll taste world-class wines and discover the terroir that makes Lombardia one of Italy's most remarkable wine destinations.

Veneto

The second destination will be **Veneto**, home to one of the most enchanting cities in the world—Venice. But Veneto offers much more than Venice alone. Together, we'll embark on an exclusive wine experience, discovering the unique vineyards and hidden gems of the **Valpolicella** area that define Veneto's rich winemaking tradition. You'll have the opportunity to taste world-class **Amarone**, **Ripasso** wines and learn about the region's exceptional terroir.

Friuli-Venezia Giulia

Last but certainly not least, we will take **the Wine and Taste Route of Friuli Venezia Giulia**, that connects the stunning coastline with the majestic mountain region. Three great culinary trends – **Central European, Venetian and Slav** - merge in a cuisine that is “Made in Friuli Venezia Giulia”. The typical regional flavours appear in a variety of recipes, fruit of the incredible variety of landscapes, environments and climactic conditions, unique in the quality of local products. Our journey will take you to some of its most iconic stops. One of our highlight will be visiting the producers of **Prosciutto Crudo di San Daniele**, a local delicacy famed for its delicate, rich flavor.
